## Dye Sublimation Paper

### Applications

- For sublimation transfer on many different kinds of materials, including satin, terylene, ingrain yarn as well as different kinds of panel with surface treatment, such as metal, wood, glass etc.

### Features

- Long shelf-life
- Smooth surface and good printing results
- Applicable for piezo printhead
- High transfer rate

### Specifications

- Width: 1620/1700mm
- Length: 100m
- Weight: 42/45/60/65/70/90/100gsm

MODEL	WIDTH	MOQ
50G Fast Dry	1.62/1.70	100 Rolls
60G Fast Dry	1.62/1.70	100 Rolls
70G Fast Dry	1.62/1.70	100 Rolls
80G Fast Dry	1.62/1.70	100 Rolls
90G Fast Dry	1.62/1.70	100 Rolls
100G Fast Dry	1.62/1.70	100 Rolls
100G Sticky	1.62/1.70	100 Rolls
Yellow 70G Dry	1.62/1.70	100 Rolls
Yellow 90G Dry	1.62/1.70	100 Rolls

## Tissue Paper

### Applications

- High gas barrier to prevent surplus dye-sub gases from contaminating the belt of heat press
- Compatible with all oil and electric heated rotary drum calendars

### Features

- Extend the life of the calendar belt by blocking excess dye-gas
- High tensile strength to reduce web tear-outs
- Retains most tensile strength after prolonged exposure to heat
- 100% recyclable ingredients
- Wrinkle-free wind prevents transferred crease marks

### Specifications

- Width: 0.61m/0.914m/1.1m/1.6m/1.8m/3.6m
- Length: 1000m
- Material: 100% raw paper

Weight	Width (m)	Width (")	Length (m)	Core	Packing
