

Eastsign Welding Machine

Features

- Total seaming solutions for all PVC materials, especially for TarPaulin and banner
- Welding length: up to 30m
- Welding width: varies by changing welding heads
- High welding speed with low consumption
- Tape welding available

Specifications

 Model	ZL-3000S
Voltage	110V/220V, 50Hz/60Hz
Power	3kW
Surging Frequency	27.12MHz ± 0.5%
Welding Pressure	4-6kg/cm ²
Welding Speed	2-6m/min
Welding Thickness	3mm (Multi-layer)
Welding Width	20mm or 0.79"/30mm or 1.18"/40mm or 1.57"
Table Length	6m or 19.7' (up to 30m or 98.4')

Ammeter Infrared Guidance

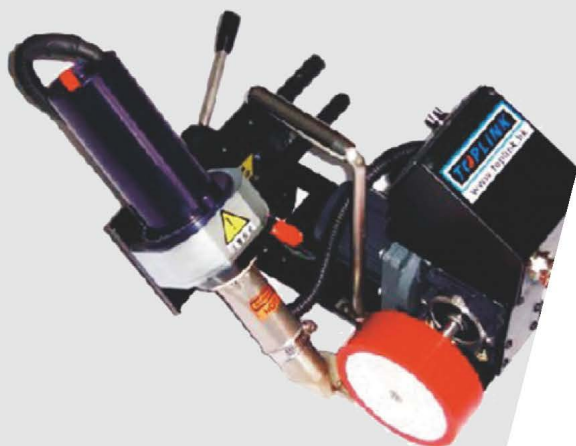

Sample Welding Tape

Hot Air Welder

Welding gun

Features

- Economical Step Motor Sub-division System
- Easily Adjustable with Good Heat Dispersion
- Compatible with CorelDraw, CAD or Other Design Software and Output Directly
- Long Working Life, Low Noise, Stable System, Lower Price

Specifications

 Model	6001B
Voltage	220V ± 10%, 50Hz
Power	2kW
Speed	1m-6m / minute or 3.3' - 19.7' / minute
Weight	15kg or 33lb
Packing Size	450mm x 450mm x 500mm 18" x 18" x 20"
Welding Thickness	1mm - 5mm or 79 mil to (Multi-layer)
