Eastsign
Flatbed Applicator – Smart Table

Features
- PVC foam board
- Metal panel
- Glass

Laminating
- Smart table can also be used for post processing laminating in cold or heat assist modes.

Mounting
- It only takes one person to mount digital prints or adhesive stickers on to many forms of substrate. Mount on foam board, corrugated panels, metal panels, banners and glasses, all without bubbles.

Work Station
- The surface can also be used for any of your signage uses. For activities like trimming graphics, doing layouts, weeding. etc, smart table can be a great support for your shop in speeding up jobs and improving efficiency.
